

# Invitation

Friday 9 december

Dear correspondent

You are cordially invited to attend the final event of the MELODY project, which will take place on Friday December 9, 2022 in L42 Business Center & Workspaces Rue de la Loi 42 - 1000 Brussels in Brussels, Belgium.

The main objective of the MELODY project was to define, develop and deploy a harmonised CBRN training curriculum for first responders and medical staff, including ambulance drivers, paramedics and emergency room (ER) personnel. The target group includes members of agencies that are responsible for dealing with emergencies, being unintentional or intentional releases of CBRN, which require immediate action. The MELODY CBRN training curriculum helps first responders obtain a clear picture of the possible consequences and effects and how to act together in a safe and effective and efficient way.

In this event the MELODY consortium will elaborate on their main challenges and achievements. As a CBRN trainer or training center you are invited to participate in the event to learn more about the flexibility of the MELODY CBRN training curriculum. We will also show case some of the tools which were developed in the framework of this project: e-learning and card games.

For more information, visit the website at  
<https://melody.sckcen.be>

Registration is mandatory for all participants and is free  
of charge.

You can register via the following link until December 8, 2022  
until 12:00h for organisational reasons.
